Nice game, for this price one of the best!. A very fun and simple game you will have to enjoy alone because you'll be the only person playing it.. You're like a female Icarus who... tries to find Icarus.

Great platformer.. This game ROCK the multi-player is dead but its realy easy to get some player with there Discord and theres a great comunity so get it for your friends and you or friends some player and your good to go and theres AI survivor with your so its all good

Its like REsident evil Outbreak .... AND I LOOOOOOOOOOOVE IT 1!!!!

they are working on the same kind of game but in FPS (3D) chek it out !!

http://store.steampowered.com/app/644480/Outbreak The New Nightmare/. Mediocre Old School platformer, not much can be said. It can be little bit hooking if you want search things but it has also odd level designs which can be annoying. Good catch to those who owned this on the 90s, to the others I recommend Crystal Caves which is much better platformer in my opinion.

. Lovely game!. Great HOG game. Story line is good. I especially like the map feature added to this game. Beginning this game is pretty nice. Just now waiting to see how the rest will unravel.. Gameplay is quite decent, also repetetive. Its another oneof Kaguras pervy games so install the R-18 patch if you want to see the images. The game itself is pretty good and the story makes sense in a cruel and sadistic manner. The game itself is enjoyable even without the pervy images.
